

D & E PLASTICS LTD

HIGH PRECISION PLASTICS MOULDERS AND TOOLMAKERS

Quality Policy

The Directors of D & E Plastics Limited recognise that the products and services that the Company manufactures, and supplies are of paramount importance to its continued prosperity. To this end the Company is operating under a quality management system as laid down along the lines set out in **ISO 9001: 2015**.

To ensure that the Company achieves its objectives it carries out scheduled monitoring of its operations, effective Customer liaison, problem solving and system reviews, as well as operating a training policy which ensures that all its personnel, *from Directors downward are suitably qualified for the tasks they are required to undertake* by providing, as required, on-going training and education programmes.

The Directors also ensure that, where required, specialist services to develop, implement, monitor and maintain the system in compliance with the stated aims of the Quality Management system and the company's long-term Objectives are provided. These will include registration by a Certification body of the Company to its **ISO 9001: 2015** certification scheme and annual review.

The Company is committed to complying with all relevant legislation as, the Health and Safety at Work etc. Act 1974, Factories Act 1961, relevant COSHH risk assessment procedure and any other applicable requirements.

It is the Directors belief that, in operating to these standards, they will meet the requirements of their Customers, the industry and their own objective of achieving an increasing Customer base and long-term profitability together with a commitment to continual improvement.
